**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1, 5 and 10 are allowable over the prior art of record because non of the prior art of record teaches the combined claimed elements as set forth in the claim 1, 5 and 10.

None of the prior art of record teaches or fairly suggests that image processing method for generating perceptually continuous video loop based on a plurality of one dimensional image characteristic control that traverses useful range values of each of two or more one dimensional image characteristic control, and together with combination of other claimed elements as set forth in the independent claims 1, 5 and 10. Therefore, the claim 1 and 10 are over the prior art of records.

Claims 2-4, 6-9 and 11-12 are allowed because they are depended on independent claims 1, 5 and 10.

Any comments considered necessary by applicant must be submitted no later than payment of the issue fee and, to avoid processing delay, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reason for Allowance."

### ***Conclusion***

1. The reference made of record and not relied upon is considered pertinent to applicant's disclosure. Version 3.0 of the Harry's filter's play feature for effect animation does have similar characteristic as claimed invention, but it does not meet date requirement as prior art.
